## **3. Invoice Type**

### **1. Standard Invoice**

A basic invoice for goods or services provided.

Includes item details, price, taxes, and total amount.

### **2. Proforma Invoice**

A preliminary bill sent before delivering goods/services.

Used for approval before the final invoice is issued.

### **3. Commercial Invoice**

Used for international trade.

Includes customs details, shipping info, and export taxes.

### **4. Credit Invoice (Credit Note)**

Issued when a refund or discount is given.

Used to correct errors in a previous invoice.

### **5. Debit Invoice (Debit Note)**

Issued when additional charges are added to an existing invoice.

### **6. Recurring Invoice**

Used for subscription-based or recurring services (monthly, yearly).

### **7. Timesheet Invoice**

Used for billing based on hours worked (common in freelancing and consulting).

## **8. Interim Invoice**

Issued for partial payments in large projects.

## **9. Final Invoice**

The last invoice issued after project completion.

## **10. Past Due Invoice**

Sent when a payment is overdue as a reminder.
